Rome, 00187 Italy
Phone +39 06 4525 9282

**PROFILE**

Gianluca has extensive experience in antitrust, economic regulation, State aid and foreign subsidies, golden power, unfair commercial practices, EU law, and complex commercial matters. He also has significant experience with intellectual property matters. His practice covers a wide range of highly regulated industries, including electronic communications, media, postal services, energy, pharmaceuticals, transport, banking, insurance, and food.

Gianluca is an experienced litigator, having handled cases before before various courts, including the Italian superior courts (Court of Cassation and Council of State) and the Court of Justice of the European Union. He has successfully defended Italian and international clients in high-stakes and precedent-setting cases before civil and administrative courts, EU courts, and arbitral tribunals, as well as in complex proceedings before the EU Commission and national antitrust and regulatory authorities.

In addition to litigation, Gianluca provides strategic, business-oriented advice, helping clients manage legal risks and design commercial strategies, policies, and agreements (including distribution, license and R&D agreements) that support growth in highly regulated markets.

Gianluca is an associate professor of economy law at Università degli Studi Link of Rome, where he focuses on antitrust, regulation, and intellectual property, as well as an adjunct professor of law and economics at Luiss Guido Carli University of Rome. He is the author of numerous publications on antitrust, unfair competition, intellectual property, and civil law, and is a frequent speaker at conferences in Italy and abroad.
